

**Substances of Very High Concern [SVHC] under EU Regulation (EC) No. 1907/2006 Registration, Evaluation, Authorization and Restriction of Chemicals (REACH)**

Barcodes West has implemented core business procedures on product integrity and safety. One of the components of this business process is compliance with the applicable and relevant product legislation such as the EU Regulation (EC) No. 1907/2006 Registration, Evaluation, Authorization and Restriction of Chemicals (REACH). As part of our REACH compliance efforts, we are continually requesting all of our material suppliers to respond for all materials that are provided to us as to whether they contain any "Substances of Very High Concern" (SVHC) (as listed in Appendix 1 of REACH) June 20<sup>th</sup>, 2013.

We have determined using this process that the products we supply do not contain substances that are "intended to be released under normal or reasonably foreseeable conditions of use" within the meaning of that paragraph.

Our suppliers have also stated the raw materials for the products do not contain any of the substances of substance groups identified as "Substances of Very High Concern" in a concentration above 0,1% w/w in accordance with the requirements of Article 33 of REACH. The suppliers are solely responsible for completeness and accuracy of the information provided to us. SVHC chemicals are not intentionally used in the manufacture of our products and there should be no incidental contamination during their manufacture, resulting in less than 0,1% w/w of SVHC (REACH defined trigger) substances in our products.

This information applies to products supplied directly to Barcodes West. If these listed products undergo further processing by our customers then they are responsible for assuring that the further worked product complies with all applicable requirements for their own application

We believe this information is accurate and is offered in good faith. This information is subject to revision when additional knowledge/information is gained. For more information, please contact your Sales Representative or Customer Service Consultant.

Sincerely,

A handwritten signature in black ink, appearing to read "Jason Golding".
